## Miscellaneous Values

### Deductible Plan

Our company has an optional benefits deductible program available that applies on a per claim basis. The net loss (total loss minus the amount of the deductible) is applied toward the experience modification. The loss is reported on a gross basis and is automatically reduced by NCCI on the experience rating worksheet. The percentage premium reductions are applicable by hazard group as shown in the table below. To determine what hazard group to apply, use the classification producing the largest amount of estimated workers compensation premium from the Table of Classifications by Hazard Group found in the *Basic Manual for Workers Compensation and Employers Insurance*.
